About Me

Passionate and self-driven Front-end Developer with hands-on experience in building modern, responsive web applications using **React.js**, **Next.js**, **TailwindCSS**, and **TypeScript**. Strong focus on clean code, SEO optimization, and component-based architecture. Experienced in delivering real-world projects from scratch to deployment. Open to both **on-site** and **remote** opportunities.

SKILLS

Languages & Frameworks : JavaScript, React, Next Js, Three js

Styling : TailwindCSS, SCSS/SASS, Responsive Design

Tools : Git, Github/Gitlab , figma (basic)

Other : REST APIs, SEO, Clean Code

EXPERIENCE

🌐 **FD Arya — Corporate Website for Manufacturing Company**

Stack: Next.js, TailwindCSS, Sass
Live: fdarya.com | https://github.com/MahanZandi/fdarya.com
Designed and developed a full-featured, SEO-optimized corporate website for *Faravardeh Arya* company. The project showcases company information, product listings, and team members.

- Built the project entirely from scratch and handled both frontend logic and deployment.

- Applied modern UI design practices with full responsiveness.

- Focused on SEO, performance, and clean code architecture.

- Developed and launched within a 3-month timeline.

EXPERIENCE

💼 Personal Portfolio Website

Stack: Next.js, TailwindCSS, Sass, Three.js, TypeScript
Live: mahanzandi.ir | GitHub Repo
A personal website designed to showcase my portfolio and professional background. The project features:

- Light and dark themes

- Responsive and modern UI/UX design

- Multilingual support using `next-intl` (Persian & English)

- A 3D section built with Three.js

- SEO best practices for improved visibility

  🔒 *For the best experience accessing the website, it's recommended to turn on a VPN.*

🌐 Languages

- Persian – Native

- English – Intermediate

📚 Learning & Growth

Constantly learning through official documentation, YouTube tutorials, and real-world practice. Always staying up-to-date with modern frontend technologies.
